Speakers

1. Prof. Ferry Butar Butar, Ph.D.,
Mathematics and Statistics Department,
Sam Houston State University, USA
2. Ouhao Chen, Ph.D
Education Research Department,
National Institute Education,
Nanyang Technological University, Singapore
3. Sahid, M.Sc.,
Mathematics Education Department,
Yogyakarta State University, Indonesia

ATCM speakers:

Jean-Jacques DAHAN (France)
Jonaki GHOSH (India)
Weng Kin HO (Singapore)
Ron LANCASTER (Canada)
Guillermo DAVILA-RASCON (Mexico)
Haitham S. SOLH (United Arab Emirates)
José Antonio VALLEJO (Spain)
Wei-Chi YANG (USA)

Important Date

- Submission of Full Paper deadline : August 31, 2018
- Notification of Full Paper Acceptance : September 30, 2018
- Submission of Revised Full Paper deadline : October 31, 2018

Background

Technology has become a huge part of works of researchers, educators and practitioners around the world. Most governments in the world have also been integrating their policy on education. Therefore, the availability and development of advanced technology such as computer hardware and software, mobile devices, and internet, have direct impact on the practices of educational research and classroom activities, including in the fields of mathematics and mathematics education. Researchers have been developed many technological innovations to support better mathematics education. The advanced technological tools such as computer algebra systems (CAS), interactive and dynamic geometry software, and hand-held devices, have been enabling the effectiveness of mathematics teaching and learning. Furthermore, the horizon of research in mathematics and its applications can continue growing rapidly by driven of these technological developments. Many research ideas have been reported and published in many scientific international forums and journals around the world.

Considering these issues, Mathematics Education Department Faculty of Mathematics and Natural Sciences Yogyakarta State University will organize The 2nd International Seminar on Innovation in Mathematics and Mathematics Education 2018 (The 2nd ISIMMED 2018). This seminar is a joint conference with the 23th Asian Technology Conference in Mathematics (ATCM 2018). This joint conference may provide a platform for researchers, educators, and practitioners to establish further national and international collaborations among institutions as well as individuals.

Objectives

1. To exchange new innovation among researchers, educators, students, mathematicians, and practitioners
2. To find global partners for future collaborations
3. To gain and establish research relations

Scope

Mathematics:
Algebra, Geometry, Analysis, Statistics, Applied Mathematics, and Computer
Mathematics Education:
Innovative Mathematics Teaching and Learning, Evaluation and Assessment in Mathematics Education, Using Technology in mathematics education

Date and venue

Date : November 20-24, 2018
Time : 08.00 - 16.00

Venue:
- Auditorium of Yogyakarta State University,
- FMIPA Yogyakarta State University
- Rectorate Conference Hall
